Description

2-functional front lamp FT-356 LED perfectly meets the needs of AGRICULTURE .

It has a position light and indicator light.

It is available in two basic product versions: – with position light and front indicator cat. 1

FT-356 LED – with position light and indicator cat. 5 (front and rear)

FT-356 LED IND

It has a wide application in various types of agricultural vehicles, such as: tractors, combines, excavators. The operating voltage range is 12-30V DC .

The products have the highest degree of protection against the ingress of solids, water and dust

IP 69 . Thanks to these properties, all agricultural work can be carried out regardless of unfavorable weather conditions.

The lamps are also characterized by very good resistance to shocks and vibrations , as well as to temperature changes in the negative and positive range (from -40 °C to +50 °C).

The products can be mounted both vertically and horizontally . The basic versions of the lamps are mounted on flat surface using mounting screws . It is possible to purchase a housing for recessed mounting or a bracket for side mounting .

The products are comply to European safety standards and are legal for use on public roads. They have European homologation E9 and a certificate of electromagnetic compatibility — EMC .

Specifications

Protection rating	IP69
front position light	12 V: 0.04 A · 24 V: 0.04 A · 12v: 0.5 W · 24v: 1 W
indicator kat.1	12 V: 0.42 A · 24 V: 0.2 A · 12v: 5 W · 24v: 5 W
indicator kat.5	12 V: 0.03 A · 24 V: 0.03 A · 12v: 0.5 W · 24v: 0.5 W
indicator kat.1 + kat.5	12 V: 0.45 A · 24 V: 0.23 A · 12v: 5.5 W · 24v: 5.5 W

Type approval	E9*148R00/05*22255*00 (category A 5 1)
Weight	0,11 kg
