Warning beacon FT-200 LED

Part no.: FT-200 LED

Price on request

Fristom

Description

Category XB1 FT-200 LED warning lamps generating emergency light have been fitted with 6 extraordinarily efficient OSRAM LEDs . Owing to the double lens system implemented in the lamp, the light emitted by the diodes is focused and cast in the right direction.

It offers six different warning flash programs, which can be easily and user-friendly adjusted. Its incredibly powerful light signal can be seen even in the most challenging conditions, both during the day and at night.

The FT-200 LED ECO lamp model features only single lighting program- double flash . The product does not include synchronization or flash pattern selection functions, making it a simple and cost-effective solution for a wide range of applications.

The lamp housing, made of an impact-resistant material, has been combined with a lampshade made of polycarbonate (PC) to create a product that is extremely durable and resistant to mechanical damage, shocks as well as moisture, all of which is attested by relevant certificates.

Wide range of applications:

transportation of large-size cargo

vehicles involved in road repair and construction

Roadside assistance

garbage trucks

Specifications

Voltage	12-30 V
Cable length	1 m
ADR approval	no
Warning lights	12 V: 0,6 A · 24 V: 0,3 A · Peak: 8 W
Warning lights (FT-200 LED DARK)	12 V: 1 A · 24 V: 0,54 A · Peak: 13 W

Weight

0,14 kg
