Description

Rear combination LED lamps with a dynamic direction indicator

FT-610 LED DI

have a built-in reflective triangle. They can be used in all kinds of semi-trailers, trailers and tow trucks as well as in other vehicles where a reflective triangle is required. Depending on the configuration, they have 6 functions (without bottom number plate) or 7 functions (with bottom number plate). Thanks to the innovative technology —Smart Brake Light

the STOP function is partially illuminated when the fog lamp is on. FT-610 LED DI lamps comply with all the requirements of the European E9 approval and are certified with the EMC electromagnetic compatibility certificate.

In addition, they are universal in terms of voltage

they operate in the range of 12—30 V . The products are perfect for temperature range: from -40°C to +55°C . The most important features of the FT-610 LED DI lamp series:

The construction made of the highest quality materials ensures the lamps high resistance to difficult weather conditions and mechanical damage

(PC cover).

dynamic indicator,

electrical protection against reverse polarity.

Specifications

Voltage	12-30 V
Functions	6
Connection	bayonet connector
ADR approval	no
rear running light + number plate light (bottom)	12 V: 0,2 A · 24 V: 0,2 A · 12v: 2,5 W · 24v: 5 W

STOP light	12 V: 0,3 A · 24 V: 0,3 A · 12v: 4 W · 24v: 8 W
indicator	12 V: 0,85 A · 24 V: 0,85 A · 12v: 10 W · 24v: 20 W
reversing light	12 V: 0,2 A · 24 V: 0,25 A · 12v: 2,5 W · 24v: 6 W
fog light	12 V: 0,15 A · 24 V: 0,15 A · 12v: 2 W · 24v: 4 W
Weight	0,95 kg
