Price on request

Fristom

Description

Marker lamps FT-147 LED are inspired by RETRO style.

They are characterized by classic, timeless design, careful workmanship, amazing quality and high resistance to mechanical damage.

They are available in several product versions

depending on the shape of the rubber arm and the color of the light:

FT-147 LED marker lamps (white and red) with European approval and electromagnetic compatibility certificate

FT-147 LED decorative lamps (yellow-yellow, red-yellow) – not European approved.
