LED rear lamp FT-325 LED

Part no.: FT-325 LED

Price on request

Fristom

Description

Universal LED rear lamp with four functions: rear position (NEON), stop, indicator and reversing light. Rectangular recessed lamp with a 1 m cable, mounted vertically or horizontally. The FR1 version comes with a black rectangular mounting frame for direct fixing to the body. European E9 type approval and EMC certificate. Up to four FT-325 lamps can be connected so that the indicator runs as a dynamic turn signal (extra blue wire; with one lamp or the static variant it is left unconnected and insulated).
