License plate frame with LED light FT-265 LED M15 QS150

Part no.: FT-265 LED M15 QS150

Price on request

Fristom

Description

Universal two-line license plate frame with an integrated LED plate light, for cars, vans, trucks, trailers, recovery vehicles, agricultural machinery and bicycle racks. A rear latch makes plate replacement easy. Single-function low-power LED lamp, European E9 homologation, EMC certificate, impact-resistant PC lens, IP69. Optional polarity connection. Aimed in particular at trailer, semi-trailer and recovery vehicle manufacturers.
