Multifunctional rear lamp 2525 DD L BLACK W281d-DD

Part no.: 2525 DD L BLACK

Price on request

WAS

Description

Ultra Beauty series from WAS: LED technology with a design built around an integrated position and indicator light and a transparent, easily replaceable lens. W281 is the version for trailers and semi-trailers with a triangular reflector. Functions: position light (red, large central field), rear direction indicator in the same field (the red light smoothly switches to yellow), dynamic sequential indicator, stop light in the outer module, white reversing light and fog light in the inner module. Slim housing (without licence plate light) or thick housing TB (with licence plate light); the LPD version 2525A also includes it. Fully LED in standard and BLACK look. Housing and lens are made of weather- and UV-resistant plastic. Fixed with two M8x30 screws, 152 mm apart. Connectors: plain 200 cm cable, Schlemmer, TYCO, WAS 7-pin or 4 x Super Seal. EMC approved. Logo-free NN versions are available on request.

Specifications
