Warning beacon FT-152

Part no.: FT-152

Price on request

Fristom

Description

The series of FT-152 LED beacons is equipped with efficient LEDs of a high luminous efficiency. The emitted stream of light can be seen even in the most difficult weather conditions. Lamps significantly improve road safety. Their task is to inform about all kinds of obstacles and dangers on the road.

The product is extremely durable and resistant to mechanical damage (IP68) , shocks and moisture. The body of the lamp is made of an extremely resistant material, while the solid lampshade is made of polycarbonate (PC).

High reliability and compact design of the lamp make this product widely popular in modern special purpose vehicles in all kinds of vehicles performing road works, cleaning or agricultural work.

FT-152 LED warning lamps are available in a wide range of configurations, allowing you to choose the right variant for different vehicles and applications.

The series includes models with Double Flash (DF) and Rotating Flash (RO), as well as several mounting options: 3-bolt mounting , central bolt mounting , magnetic base with a cigarette lighter plug , and PLUG-IN pole mounting. Variants are available for 12–30V DC systems, as well as High Voltage models up to 80V , designed for installations with a wider voltage range.

MAG version is equipped with a universal cigarette lighter plug 12/24V with a replaceable fuse and a removable red tip that allows the use of EURO and DIN sockets.

Specifications

Voltage	80 V
Protection rating	IP68
Cable length	1,5 m
Warning lights (FT-152 RO LED)	12 V: 0.5 A · 24 V: 0.25 A · Peak: 6 W · Average: 6 W
Warning lights (FT-152 LED DF / FT-152 DF LED HV (High voltage))	12 V: 1.1 A · 24 V: 0.6 A · Peak: 13.2 W · Average: 14.4 W
