Work lamp FT-036 LED MAG M30

Part no.: FT-036 LED MAG M30

Price on request

Fristom

Description

Series of universal LED work lamps FT-036 is equipped with highly efficient LED diodes made by OSRAM. That process allowed us to obtain high light paramtres, about 1800 lm for rated power consumption 13,5W. Those lamps are widely used in both road and water transportation, agriculture, construction and in every sphere where severe atmospheric conditions occur including high humidity. The body is made of shock proof material and along with the lampshade made of polycarbonate (PC) form an extremely solid and resistant to mechanical damage, moisture and shock product that is confirmed with the relevant certificate. The small size allows the lamp to be placed in even the most inaccessible places.

The FT-036 LED lamp has obtained additional approval and can function. It has reversing function when lamp mounted at an angle of 55°.

Specifications

Voltage	12-24 V
Luminous flux	1800 lm
Connection	magnetic base
Cable length	3 m
ADR approval	no
Work lamps	12 V: 1,1 A · 24 V: 0,55 A · Peak: 13,5 W
Weight	1,1 kg
